DIPLOMA

for Excellent Delivery Precision

Congratulations!

Your company has managed 100% delivery precision to Volvo CE Bräås for the first half of 2015

The Logistics Department at the Volvo CE plant in Bräås is very happy to see this performance from you and we hope that you can continue to keep this level going forward. At Volvo CE we are continuously working to secure the material availability level to our lines and to keep a high stock turnover, and you are supporting us in our task. Thank you!

Sincerely,

Per North

VOLVO CE BRÄÅS

Volvo CE Diploma for Excellent 100 % Delivery Precision

During the first half of 2015 Team APe has managed 100 % delivery precision to Volvo CE Bräås. This is a result of our performance and continuous improvements in QDC (Quality, Delivery & Cost). We will continue to do our best to keep this level going forward.

Team APe's priorities is to support our customers to maintain their reputation of high quality and safe products. These priorities are demonstrated through; on time delivery, competitive total cost, proactive risk management and effective communication through Toolbox Management (TM)

Visit APe at Elmia Subcontractor in Jönköping, Sweden, November 10-13th

Elmia Subcontractor is Northern Europe's leading trade show for subcontractors in the manufacturing industry and their customers - a genuine specialist fair for product development and purchasing.

Take the opportunity to meet Team APe and discuss business opportunities for zero defect manufacturing of premium castings and forgings.

Welcome all to our stand A02:17.

APe Business Area - Blue Sky Connection(BSC)

Blue Sky Connection is proud to announce the new partnership with Zebra Technologies (Motorola Solutions)

Blue Sky Connection has developed a mobile hybrid power station for communication and surveillance called PowerCube. The PowerCube is equipped with a network camera and WiFi -system, which are solely powered by wind and solar energy.

The partnership makes BSC an authorized value added reseller for wireless networks.

Together with Axis Communications and Motorola Solutions, BSC provides a complete mobile communication and surveillance system for the Port industry, Airports, Security companies and other industries.

BSC will in the beginning of september deliver a complete customized solution for Kalmar Harbour in Sweden. This gives Kalmar Harbour the ability to easily and cost-effectively upgrade their security to meet EU's safety regulations.
