Engineering Company News Vol. 1 - 2016

We at APe would like to wish all our customers and suppliers a really good start in the year of 2016.

New interesting projects in year 2016

The year begins with a trip to China along with some important customers to APe. The main goal of the trip was to establish a complete manufacturing unit for some significant aluminum articles.

An important part of the project was to obtain confirmation financially as well as politically. During the meeting numerous of important stakeholders participated. As the picture confirms everyone was satisfied with the agreement and the project can now begin.

Buildings ready to convert into complete manufacturing units. Located in Anfeng town Xinghua City, Jiangsu Province, close to numerous important transportation joints, such as Xinchang Railway, Dafeng Port, Yangtai Airport, Taizhou Port and Yancheng airport.

From the left: Mr. Pan Dong Town Bank Branch Manager, Mr. Yu Guang Qian Town Mayor, Mr. Liu Heng Zhong City Bank Branch Manager, Mr. Yu Da Hai Town Party Secretary, Mr. Boo Persson MD APe, Mr. Wen Mei Chen CEO Meixin Casting.

Agricultural Bank of China

Agricultural Bank of China (ABC) is China's third largest lender by assets.

In 2015, ABC ranks third in Forbes 13th annual Global 2000 ranking of the biggest, most powerful and most valuable companies in the world.

ABOUT PROCESS ENGINEERING LOGISTICS ENGINEERING CASTING AND FORGING

Helps customers to manufacture Premium Quality castings and forgings with zero defect approach, on time delivery and competitive pricing

APe's new website is launched

We are very excited to finally launch our new website. A few of our goals with the new website were to make it faster and easier to navigate for users, but most of all, we wanted to help our clients to get to know us better. If you take a look around the website we think you will get a pretty good impression of who we are and what we do as a company!

APe Business Area - Blue Sky Connection

BSC Thor on the way to Norrköping

BSC begins the year by obtaining an order from Norrköping Municipality of two BSC Thor street lighting.

We help the municipality with illuminating one for the municipality important parking lot. The municipality makes a great saving by not having to pull a lot of expensive electrical connections. More orders are on its way.

BSC Street Lighting

BSC Hybrid Street Light.

Powered by wind and solar energy.

Exists in two different performances:

Tie Grid or as a Stand-alone system.

The system can be customized according to customer's preferences.
